JACKSONVILLE, Fla.--(BUSINESS WIRE)--Aug. 2, 2017-- FIS™ (NYSE:FIS), a global leader in financial services technology, today reported that second quarter GAAP revenue increased 1.5 percent to \$2,341 million from \$2,305 million in the prior year quarter. Operating income increased to \$359 million for the quarter, from \$283 million in the prior year quarter, while operating income margin was 15.3 percent. Net earnings from continuing operations attributable to common stockholders was \$132 million for the quarter, or \$0.40 per diluted share, compared to \$0.36 per diluted share in the prior year quarter.

For the second quarter, organic revenue increased 2.3 percent. Adjusted EBITDA increased to \$746 million for the quarter, from \$696 million in the prior year quarter, while adjusted EBITDA margin was 31.8 percent. Adjusted net earnings from continuing operations attributable to common stockholders was \$342 million for the quarter, or \$1.02 per diluted share, compared to \$0.90 per diluted share in the prior year quarter.

"We are pleased with our year-to-date performance, enabling us to raise our EPS guidance today," said Gary Norcross, FIS president and chief executive officer. "Our intense focus on executing our strategic plan continues to deliver benefits to our clients and ongoing value to our shareholders."

Segment Information

- Integrated Financial Solutions (IFS):

- Global Financial Solutions (GFS):

GAAP revenue increased 2.7 percent to \$1,076 million from \$1,048 million in the prior year quarter. Organic revenue increased 3.9 percent. Adjusted EBITDA increased to \$331 million from \$287 million in the prior year quarter, and adjusted EBITDA margin was 30.8 percent.

- Corporate / Other:

GAAP revenue declined 20.8 percent to \$84 million compared to \$105 million in the prior year quarter. Organic revenue decreased 17.8 percent. Adjusted EBITDA loss was \$54 million and is inclusive of \$75 million of corporate expenses.

Second quarter interest expense, net of interest income, was \$87 million.

Balance Sheet and Cash Flow

As of June 30, 2017, cash and cash equivalents totaled \$786 million and debt outstanding totaled \$9.7 billion. Second quarter net cash provided by operating activities was \$74 million and free cash flow was \$275 million.

The Company paid dividends totaling \$97 million in the second quarter.

Updating Full-Year 2017 Guidance

Due to the successful execution of the divestiture of our consulting businesses on July 31, 2017, recently announced financing activities, and year-to-date performance, the Company is updating full-year 2017 guidance as follows:

- Consolidated GAAP revenue flat to down 1 percent;
 - IFS GAAP revenue growth of 2 to 3 percent; and
 - GFS GAAP revenue flat to down 1 percent
- Consolidated organic revenue growth of 2 to 3 percent;
 - IFS organic revenue growth of 3 to 4 percent; and
 - GFS organic revenue growth of 4 to 5 percent
- Adjusted EBITDA of \$3,030 million to \$3,075 million
- Adjusted EPS of \$4.22 to \$4.32, an increase from previous guidance of \$4.15 to \$4.30

Today the company is announcing that its board of directors has approved a new \$4 billion share repurchase authorization, effective through December 31, 2020. The company's revised full-year 2017 adjusted EPS guidance does not anticipate any share repurchase impact.

FIS has not provided a reconciliation of the foregoing forward-looking guidance to the most comparable GAAP measures for Adjusted EBITDA or Adjusted EPS because such measures are not available at this time without unreasonable efforts. The significant impact of the SunGard acquisition,

including among other things, the timing and amount of integration and severance costs, and the transition of systems, facilities and personnel, make it difficult to provide meaningful and comparable GAAP guidance.

FIS will sponsor a live webcast of its earnings conference call with the investment community beginning at 8:30 a.m. (EDT) Wednesday, August 2, 2017. Use of Non-GAAP Financial Information

Generally Accepted Accounting Principles (GAAP) is the term used to refer to the standard framework of guidelines for financial accounting. GAAP includes the standards, conventions, and rules accountants follow in recording and summarizing transactions and in the preparation of financial statements. In addition to reporting financial results in accordance with GAAP, we have provided certain non-GAAP financial measures.

These non-GAAP measures include adjusted revenue, EBITDA, adjusted EBITDA, adjusted EBITDA margin, constant currency revenue, organic revenue growth, adjusted net earnings from continuing operations (including per share amounts), adjusted cash flow from operations and free cash flow. These non-GAAP measures may be used in this release and/or in the attached supplemental financial information.

We believe these non-GAAP measures help investors better understand the underlying fundamentals of our business. As further described below, the non-GAAP revenue and earnings measures presented eliminate items management believes are not indicative of FIS's core operating performance. The "constant currency" and "organic revenue" measures adjust for the effects of exchange rate fluctuations, while organic revenue also adjusts for acquisitions and divestitures, giving investors further insight into our core performance. Finally, the non-GAAP cash flow measures provide further information about the ability of our business to generate cash. For these reasons, management also uses these non-GAAP measures in its assessment and management of FIS' performance.

Adjusted revenue consists of reported revenue, increased to reverse the purchase accounting deferred revenue adjustment made upon the acquisition of SunGard. The deferred revenue adjustment represents revenue that would have been recognized in the normal course of business by SunGard under GAAP but was not recognized due to GAAP purchase accounting adjustments. The deferred revenue adjustment in purchase accounting was made entirely in the Corporate and Other segment; reported GAAP results for the IFS and GFS segments are not affected by this adjustment and, therefore, no adjusted revenue is presented for these segments.

EBITDA reflects earnings from continuing operations before interest, taxes, depreciation and amortization.

Adjusted EBITDA excludes certain costs and other transactions which management deems non-operational in nature, the removal of which improves comparability of operating results across reporting periods. This measure is reported to the chief operating decision maker for purposes of making decisions about allocating resources to the segments and assessing their performance. For this reason, Adjusted EBITDA, as it relates to our segments, is presented in conformity with Accounting Standards Codification 280, Segment Reporting, and is excluded from the definition of non-GAAP financial measures under the Securities and Exchange Commission's Regulation G and Item 10(e) of Regulation S-K.

Adjusted EBITDA margin reflects adjusted EBITDA divided by adjusted revenue.

Constant currency revenue represents (i) adjusted revenue in respect of the consolidated results and the corporate and other segment and (ii) reported revenue in respect of the IFS and GFS segments, in each case excluding the impact of fluctuations in foreign currency exchange rates in the current period.

Organic revenue growth is constant currency revenue, as defined above, for the current period compared to an adjusted revenue base for the prior period, which is further adjusted to exclude the impact of any acquisitions and divestitures by FIS during the applicable reporting period.

Adjusted net earnings from continuing operations excludes the impact of certain costs and other transactions which management deems non-operational in nature, the removal of which improves comparability of operating results across reporting periods. It also excludes the impact of acquisition-related purchase accounting amortization, which is recurring.

Adjusted net earnings per diluted share, or Adjusted EPS, reflects adjusted net earnings from continuing operations divided by weighted average diluted shares outstanding.

Adjusted cash flow from operations reflects GAAP cash flow from operations as adjusted for the net change in settlement assets and obligations, and excludes certain transactions that are closely associated with non-operating activities or are otherwise non-operational in nature and not indicative of future operating cash flows.

Free cash flow reflects adjusted cash flow from operations less capital expenditures. Free cash flow does not represent our residual cash flow available for discretionary expenditures, since we have mandatory debt service requirements and other non-discretionary expenditures that are not deducted from the measure.

Any non-GAAP measures should be considered in context with the GAAP financial presentation and should not be considered in isolation or as a substitute for GAAP measures. Further, FIS' non-GAAP measures may be calculated differently from similarly titled measures of other companies. Reconciliations of these non-GAAP measures to related GAAP measures, including footnotes describing the specific adjustments, are provided in the attached schedules and in the Investor Relations section of the FIS web site, www.fisglobal.com.

SUPPLEMENTAL GAAP TO NON-GAAP RECONCILIATION — UNAUDITED

(In millions)

Notes to Unaudited - Supplemental GAAP to Non-GAAP Reconciliation for the three and six months ended June 30, 2017 and 2016.

The adjustments are as follows:

- (1) This item represents purchase price amortization expense on all intangible assets acquired through various Company acquisitions, including customer relationships, contract value, trademarks and tradenames, and non-compete agreements. Beginning with the November 2015 acquisition of SunGard, this column also includes the amortization associated with purchase price adjustments to technology assets acquired.
- (2) This item represents certain costs and other transactions which management deems non-operational primarily related to integration and severance activity from the SunGard acquisition.
- (3) This item represents the impact of the purchase accounting adjustment to reduce SunGard's deferred revenues to estimated fair value, determined as fulfillment cost plus a normal profit margin. The deferred revenue adjustment represents revenue that would have been recognized in the normal course of business by SunGard under GAAP if the acquisition had not occurred, but was not recognized due to GAAP purchase accounting requirements.
- (4) This item represents the pre-tax gain on the sale of the Public Sector and Education ("PS&E") businesses and other divestitures.
- (5) This item represents the write-off of certain previously capitalized debt issuance costs, the payment of an \$18 million bond premium associated with the early redemption of our senior notes due March 2022 during March 2017 and other costs related to debt refinancing.
