Use of Non-GAAP Financial Information

Generally Accepted Accounting Principles (GAAP) is the term used to refer to the standard framework of guidelines for financial accounting in the United States. GAAP includes the standards, conventions, and rules accountants follow in recording and summarizing transactions and in the preparation of financial statements. In addition to reporting financial results in accordance with GAAP, we have provided certain non-GAAP financial measures.

These non-GAAP measures include adjusted revenue, constant currency revenue, organic revenue increase/decrease, EBITDA, adjusted EBITDA, adjusted EBITDA margin, adjusted net earnings from continuing operations (including per share amounts), adjusted cash flow from operations and free cash flow. These non-GAAP measures may be used in this release and/or in the attached supplemental financial information.

We believe these non-GAAP measures help investors better understand the underlying fundamentals of our business. As further described below, the non-GAAP revenue and earnings measures presented eliminate items management believes are not indicative of FIS's core operating performance. The constant currency and organic revenue increase/decrease measures adjust for the effects of exchange rate fluctuations, while organic revenue increase/decrease also adjusts for acquisitions and divestitures, giving investors further insight into our core performance. Finally, the non-GAAP cash flow measures provide further information about the ability of our business to generate cash. For these reasons, management also uses these non-GAAP measures in its assessment and management of FIS' performance.

Adjusted revenue consists of processing and services revenue, increased to reverse the purchase accounting deferred revenue adjustment made

upon the acquisition of SunGard. The deferred revenue adjustment represents revenue that would have been recognized in the normal course of business by SunGard under GAAP but was not recognized due to GAAP purchase accounting adjustments. The deferred revenue adjustment in purchase accounting was made entirely in the Corporate and Other segment; reported GAAP results for the IFS and GFS segments are not affected by this adjustment and, therefore, no adjusted revenue is presented for these segments.

Constant currency revenue represents (i) adjusted revenue, as defined above, in respect of the consolidated results and the corporate and other segment and (ii) reported revenue in respect of the IFS and GFS segments, in each case excluding the impact of fluctuations in foreign currency exchange rates in the current period.

Organic revenue increase/decrease is constant currency revenue, as defined above, for the current period compared to an adjusted revenue base for the prior period, which is further adjusted to add pre-acquisition revenue of acquired businesses for a portion of the prior year matching the portion of the current year for which the business was owned, and subtract pre-divestiture revenue for divested businesses for the portion of the prior year matching the portion of the current year for which the business was not owned, for any acquisitions or divestitures by FIS.

EBITDA reflects earnings from continuing operations before interest, taxes, depreciation and amortization.

Adjusted EBITDA is EBITDA, as defined above, which also excludes certain costs and other transactions which management deems non-operational in nature, the removal of which improves comparability of operating results across reporting periods. This measure is reported to the chief operating decision maker for purposes of making decisions about allocating resources to the segments and assessing their performance. For this reason, adjusted EBITDA, as it relates to our segments, is presented in conformity with Accounting Standards Codification 280, Segment Reporting, and is excluded from the definition of non-GAAP financial measures under the Securities and Exchange Commission's Regulation G and Item 10(e) of Regulation S-K.

Adjusted EBITDA margin reflects adjusted EBITDA divided by adjusted revenue.

Adjusted net earnings from continuing operations excludes the impact of certain costs and other transactions which management deems non-operational in nature, the removal of which improves comparability of operating results across reporting periods. It also excludes the impact of acquisition-related purchase accounting amortization, which is recurring.

Adjusted net earnings per diluted share, or Adjusted EPS, reflects adjusted net earnings from continuing operations divided by weighted average diluted shares outstanding.

Adjusted cash flow from operations reflects GAAP cash flow from operations as adjusted for the net change in settlement assets and obligations, and excludes certain transactions that are closely associated with non-operating activities or are otherwise non-operational in nature and not indicative of future operating cash flows.

Free cash flow reflects adjusted cash flow from operations less capital expenditures. Free cash flow does not represent our residual cash flow available for discretionary expenditures, since we have mandatory debt service requirements and other non-discretionary expenditures that are not deducted from the measure.

Any non-GAAP measures should be considered in context with the GAAP financial presentation and should not be considered in isolation or as a substitute for GAAP measures. Further, FIS' non-GAAP measures may be calculated differently from similarly titled measures of other companies. Reconciliations of these non-GAAP measures to related GAAP measures, including footnotes describing the specific adjustments, are provided in the attached schedules and in the Investor Relations section of the FIS web site, www.fisglobal.com.

(1) Adjusted cash flow from operations and free cash flow for the three months and year ended December 31, 2016 excludes payments for contingent purchase price and the New Hires and Promotions Incentive Plan associated with the 2010 acquisition of Capco. In accordance with the accounting guidance, contingent purchase price payments are included in financing activities on the Condensed Consolidated Statements of Cash Flows only to the extent they represent the original liability established at the acquisition date. Payments related to subsequent adjustments to the contingent purchase price are included in the net cash provided by operating activities.

(2) Adjusted cash flow from operations and free cash flow for the three months and years ended December 31, 2017 and 2016 excludes cash payments for certain acquisition, integration and severance expenses, net of related tax impact. (3) Adjusted cash flow from operations excludes tax payments related to the gain on the sale of PS&E and other divestitures recognized during 2017.

SUPPLEMENTAL GAAP TO NON-GAAP RECONCILIATIONS — UNAUDITED
(In millions)

Notes to Unaudited - Supplemental GAAP to Non-GAAP Reconciliation for the three months and years ended December 31, 2017 and 2016.

The adjustments are as follows:

- (1) This item represents purchase price amortization expense on all intangible assets acquired through various Company acquisitions, including customer relationships, contract value, trademarks and tradenames, and non-compete agreements.
- (2) This item represents certain costs and other transactions which management deems non-operational primarily related to integration and severance activity from the SunGard acquisition.

- (3) This item represents the impact of the purchase accounting adjustment to reduce SunGard's deferred revenues to estimated fair value, determined as fulfillment cost plus a normal profit margin. The deferred revenue adjustment represents revenue that would have been recognized in the normal course of business by SunGard under GAAP if the acquisition had not occurred, but was not recognized due to GAAP purchase accounting requirements.
- (4) This item represents the pre-tax loss on the sale of the Capco consulting business and risk and compliance consulting business ("Capco") during the third quarter of 2017 and the pre-tax gain on the sale of the Public Sector and Education ("PS&E") businesses and other divestitures during the first half of 2017.
- (5) This item represents: (1) a pre-tax charge upon extinguishment of approximately \$171 million in tender premiums and the write-off of previously capitalized debt issuance costs and other costs related to debt refinancing on the repurchase of approximately \$2,000 million in aggregate principal of debt securities during the 2017 third quarter; (2) the write-off of certain previously capitalized debt issuance costs; (3) the payment of an \$18 million bond premium associated with the early redemption of our senior notes due March 2022 during March 2017; and (4) other costs related to debt refinancing.
- (6) This item represents adjustments due to "The Tax Cuts and Jobs Act" bill enacted on December 22, 2017.
