

FIS Commits to Cincinnati as a Strategic Technology and Innovation Campus

January 22, 2020

Key facts

- FIS, JobsOhio and REDI Cincinnati secure company's long-term strategic presence in Cincinnati.
- FIS acquired Ohio-based Worldpay on July 31, 2019.

JACKSONVILLE, Fla.--(BUSINESS WIRE)--Jan. 22, 2020-- Financial services technology leader [FIS](#)™ (NYSE: FIS) and the State of Ohio announced today that the company plans to solidify its presence in Cincinnati as a Strategic Technology and Innovation Campus.

The campus in Governor's Hill, in Symmes Township, Ohio, previously served as the corporate headquarters of Worldpay, which was acquired by FIS on July 31, 2019.

"Our significant presence in the Cincinnati market and the state of Ohio is integral to our long-term growth plans and goals to deepen our global leadership in financial technology innovation," FIS Chairman, CEO and President Gary Norcross said. "We look forward to our continued partnership with the Cincinnati region and the state as we focus on our mission to advance the way the world pays, banks and invests. We would particularly like to acknowledge JobsOhio and REDI Cincinnati for their leadership and assistance with this agreement."

"The technology provided by FIS and its Worldpay merchant payment solutions is central to the movement of money around the world – and much of that technological innovation starts here in Ohio," JobsOhio President and Chief Investment Officer J.P. Nauseef said. "As the expectations of consumers change with new technology, it is exciting to know that a Fortune 500 company that is so influential in driving global commerce has one of its most significant locations right here in Ohio."

"We have a rich history in Cincinnati and are excited about the future impact our Ohio colleagues will have in innovating and advancing the customer experience for our clients all over the world," FIS COO Stephanie Ferris said. "This is all part of a new chapter for us in the Cincinnati region, as we continue to hire the region's top tech talent and will be seeking new ways to collaborate with this community."

FIS also said it will continue to invest in its location at the University of Cincinnati's 1819 Innovation Hub, where the company has plans to employ students to work on FinTech applications. The company also plans to continue to work with the University of Cincinnati and Miami University through its initiative to increase the number of students—especially women and underrepresented minorities—who are pursuing degrees related to the fast-growing technology sector.

"Technology is advancing at a rapid rate, and FIS has been leading the way in its industry for a long time. I am thrilled that it will continue to do that from the Cincinnati region," REDI Cincinnati President and CEO Kimm Lauterbach said. "We expect to build on our relationship with FIS in exciting ways that will drive global innovation from our region and provide opportunities for those who want to work and live here."
