May 26, 2020

Key facts

- FIS has been rated by Chartis as a category leader among vendors that provide credit value adjustment (CVA) solutions.
- FIS ranked best-in-class for completeness of offering and market potential.

JACKSONVILLE, Fla.--(BUSINESS WIRE)--May 26, 2020-- Financial technology leader [FIS](#)™ (NYSE: FIS) has been named a category leader for its credit risk analytics solutions by leading industry research house Chartis Research.

In its new report, "Technology Solutions for Credit Risk 2.0: Credit Risk Analytics, 2020," Chartis placed FIS in the "Category Leaders" section of the RiskTech Quadrant® for CVA solutions. Vendors are assessed according to the completeness of their offerings as well as their market potential. FIS' solutions were recognized as best-in-class for asset class support, operational style coverage, simulation engine, scalability and sensitivity calculation.

"Banks today are challenged to perform complex calculations for portfolio and trading risk – all while trying to control costs during the COVID-19 crisis," said Martin Boyd, President, Capital Markets Solutions at FIS. "FIS' risk solutions provide sophisticated calculations with state-of-the-art computation techniques to meet regulatory requirements, and can be delivered as a service. We are honored that Chartis has recognized FIS as a category leader for the CVA solutions we provide to our clients."

"The credit risk environment is being driven by changes to regulations and counterparty risk management, emerging techniques for assessing credit and risk, and the demand for data technology," said Sid Dash, a Research Director at Chartis Research. "FIS has become a category leader for its CVA solutions by providing trading, accounting and regulatory reporting solutions, which have become increasingly important in today's marketplace."

FIS recently ranked first in the [Chartis RiskTech100®](#) and [Chartis Research Energy25](#) reports, and was named a category leader in two Chartis reports that assess solution providers of [sell-side risk management technology](#) and [IFRS 17 insurance accounting reporting solutions](#).
