"FIS' vision is to unlock financial technology to the world," said John Durrant, President of Banking Solutions at FIS. "Whether helping to protect money at rest, facilitating money in motion, or optimizing money at

work, we're continuing to power institutions ranging from multi-national banks down to the local credit unions America's communities rely upon. We are honored to be recognized by CNBC for our leading position in the industry and look forward to continued success in the future."

The award follows notable strides FIS has made this year to bring innovative fintech solutions to market, including the company's February launch of its [Open Access](#) platform to make secure open banking more accessible to its clients and their customers.

Within the last three months, FIS also announced two new fintech innovations:

- [Atelio™ by FIS](#) the innovative fintech platform that provides the building blocks for financial institutions, businesses and software developers to embed financial services into their offerings. According to [Bain Capital](#), the demand for embedded finance capabilities is accelerating, and is predicted to grow to 10% of transactions, valued at \$7 trillion, or over \$50 billion in revenue by 2026.
- [Digital One™ Flex Mobile 6.0](#) FIS' new mobile banking application tailored to financial institutions looking to leverage best-in-class digital capabilities for increased customer loyalty. According to [recent FIS research](#),ⁱ over 8 in 10 people surveyed in the UK are utilizing financial apps, and mobile banking was cited as the top reason for respondents' loyalty to their primary bank across all generations surveyed.

FIS CEO and President Stephanie Ferris was also named American Banker's Most Influential Woman in Fintech for 2024 after being [nominated to the list of honorees](#).
