INFORMATION ABOUT THE ANTICIPATED TERMS OF DEBT FINANCING

On October 5, 2007, Metavante and J.P. Morgan Securities Inc., which we refer to as “JPMorgan,” JPMorgan Chase Bank, N.A., Morgan Stanley Senior Funding, Inc., Lehman Brothers Commercial Bank, Lehman Commercial Paper Inc., Lehman Brothers Inc. and Baird Financial Corporation and certain of their respective affiliates, which we refer to as the “lenders,” agreed to certain terms, which we refer to as the “credit facility terms,” to be contained in the definitive documentation relating to the term loan facility and the revolving credit facility, which we refer to collectively as the “credit facility,” provided for in the commitment letter dated as of May 10, 2007 among Metavante and the lenders, which we refer to as the “commitment letter.” Pursuant to the commitment letter, the lenders committed to provide the credit facility to Metavante in connection with the previously announced separation of Marshall & Ilsley and Metavante into two publicly-traded companies, which we refer to as the “transactions.” The credit facility terms revise certain terms to be set forth in the credit facility that are described in the proxy statement/prospectus—information statement.

Under the credit facility terms, the interest rates applicable to the loans under the term loan facility will be based on a fluctuating interest rate measured by reference to either, at Metavante’s option, (i) adjusted London inter-bank offered rate (“LIBOR”) (adjusted for maximum reserves), plus an initial borrowing margin of 1.75% or (ii) an alternate base rate plus an initial borrowing margin of 0.75%. The interest rate margins on the term loan facility will, so long as no default shall have occurred and be continuing, be subject to a single step down based on Metavante’s meeting a leverage based test. Overdue amounts on the term loan facility will bear interest at a rate that is 2% higher than the rate otherwise applicable. The interest rates applicable to the loans under the revolving credit facility will be based on a fluctuating rate of interest measured by reference to either, at Metavante’s option, (1) adjusted LIBOR (adjusted for maximum reserves), plus an initial borrowing margin of 1.625% or (2) an alternate base rate plus an initial borrowing margin of 0.625%. The interest rate margins on the revolving credit facility will be subject to two step downs based on Metavante’s meeting leverage based tests. Overdue amounts will bear interest at a rate that is 2% higher than the rate otherwise applicable. There will be no “market flex” provision applicable to the interest rates on the term loan facility or the revolving credit facility.

Metavante will be permitted to add one or more incremental term loan facilities or to increase the revolving credit facility, which we refer to collectively as the “incremental facilities,” up to an aggregate amount of \$350 million for all incremental facilities. No lender is committed to provide or participate in any such incremental facility, and the pricing and other terms of any such incremental facility would have to be negotiated with any lender or lenders, if any, willing to provide or participate in such incremental facility. No incremental facility could be entered into if a default or event of default exists or would be created thereby, and any term loan that is part of an incremental facility would have to have a maturity date no earlier than the maturity date for the term loan facility and a weighted average life no shorter than that of the term loan facility. If the interest rate margin applicable to any incremental facility is more than 0.25% per annum higher than the interest rate margin applicable to the term loan facility, the interest rate margin applicable to the term loan facility will be adjusted to equal the interest rate margin applicable to the incremental facility minus 0.25% per annum.

The lenders will receive (i) fees on the unutilized portion of commitments under the revolving credit facility at a rate of 0.50% per annum, (ii) a letter of credit fee on the stated amount of issued and undrawn letters of credit at a rate equal to the LIBOR margin under the revolving credit facility and a fronting fee of 0.125% per annum to the issuing lender, (iii) underwriting, financing advisory, arrangement and closing fees of approximately \$40 million (approximately one-half of which will be paid by Marshall & Ilsley), subject to reduction by fees paid to other lenders participating in the syndication of the credit facility, and (iv) an annual administration fee in an amount equal to \$150,000 per year (which amount will be received by JPMorgan, as administrative agent). JPMorgan’s portion of the underwriting, financing advisory, arrangement and closing fees relating to the credit facility will be approximately \$14 million, subject to the reductions referred to above.

The credit facility will contain a covenant prohibiting Metavante from exceeding a consolidated leverage ratio (defined as the ratio of consolidated total net debt to consolidated EBITDA) as of the last day of any period of four consecutive quarters ending during the periods set forth below:

Period	Consolidated Leverage Ratio
January 1, 2008 – June 30, 2008	5.00 : 1.00
July 1, 2008 – September 30, 2008	4.75 : 1.00
October 1, 2008 – March 31, 2009	4.50 : 1.00
April 1, 2009 – September 30, 2009	4.25 : 1.00
October 1, 2009 – March 31, 2010	4.00 : 1.00
April 1, 2010 – December 31, 2010	3.75 : 1.00
January 1, 2011 and thereafter	3.50 : 1.00

The covenant will apply commencing with the fiscal quarter ending March 31, 2008, irrespective of whether any amounts are drawn under the revolving credit facility.

The definitive documentation with respect to the credit facility is expected to be consistent with the commitment letter, as supplemented by the credit facility terms, and is expected to be entered into on or prior to the date of the closing of the transactions.

The foregoing summary of certain provisions expected to be included in the credit facility reflects the current expectation of Metavante as to the form of the credit facility. Because the credit facility has not yet been executed, the actual terms of the credit facility may differ from those described above.
