Forward Looking Statements

Today's news release and this conference call contain "forward-looking statements" within the meaning of the U.S. federal securities laws. Statements that are not historical facts, including statements about revenue, organic revenue, earnings per share, margin expansion and cash flow, as well as other statements about our expectations, hopes, intentions, or strategies regarding the future, are forward-looking statements. These statements relate to future events and our future results, and involve a number of risks and uncertainties. Forward-looking statements are based on management's beliefs, as well as assumptions made by, and information currently available to, management. Any statements that refer to beliefs, expectations, projections or other characterizations of future events or circumstances and other statements that are not historical facts are forward-looking statements.

Actual results, performance or achievement could differ materially from those contained in these forward-looking statements. The risks and uncertainties that forward-looking statements are subject to include without limitation: changes and conditions in general economic, business and political conditions, including the possibility of intensified international hostilities, acts of terrorism, and changes and conditions in either or both the United States and international lending, capital and financial markets; the effect of legislative initiatives or proposals, statutory changes, governmental or other applicable regulations and/or changes in industry requirements, including privacy regulations; the effects of our substantial leverage which may limit the funds available to make acquisitions and invest in our business; the risks of reduction in revenue from the elimination of existing and potential customers due to consolidation in or new laws or regulations affecting the banking, retail and financial services industries or due to financial failures or other setbacks suffered by firms in those industries; changes in the growth rates of the markets for core processing, card issuer, and transaction processing services; failures to adapt our services and products to changes in technology or in the marketplace; internal or external security breaches of our systems, including those relating to the theft of personal information and computer viruses affecting our software; the possibility that additional facts are discovered in our continuing investigation into the unauthorized activities related to our Sunrise prepaid card platform or subsequent fraudulent activities and/or losses occur, and the reactions of customers, card associations and others to the current and any such future events; the failure to achieve some or all of the benefits that we expect from acquisitions; our potential inability to find suitable acquisition candidates or finance such acquisitions, which depends upon the availability of adequate cash reserves from operations or of acceptable financing terms and the variability of our stock price, or difficulties in integrating past and future acquired technology or business' operations, services, clients and personnel; competitive pressures on product pricing and services including the ability to attract new, or retain existing, customers; an operational or natural disaster at one of our major operations centers; and other risks detailed in "Risk Factors" and other sections of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010 and other filings with the SEC.

Other unknown or unpredictable factors also could have a material adverse effect on our business, financial condition, results of operations and prospects. Accordingly, readers should not place undue reliance on these forward-looking statements. These forward-looking statements are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. Except as required by applicable law or regulation, we do not undertake (and expressly disclaim) any obligation and do not intend to publicly update or review any of these forward-looking statements, whether as a result of new information, future events or otherwise.

Use of Non-GAAP Measures

Generally Accepted Accounting Principles (GAAP) is the term used to refer to the standard framework of guidelines for financial accounting. GAAP includes the standards, conventions, and rules accountants follow in recording and summarizing transactions and in the preparation of financial statements. In addition to reporting financial results in accordance with GAAP, the company has provided non-GAAP financial measures, which it believes are useful to help investors better understand its financial performance, competitive position and prospects for the future. These non-GAAP measures include:

- Adjusted revenue
- Organic revenue
- Adjusted earnings before interest, taxes, depreciation and amortization (EBITDA)
- Adjusted net earnings
- Free cash flow and adjusted free cash flow

These non-GAAP measures should be considered in context with the GAAP financial presentation and should not be considered in isolation or as a substitute for GAAP financial measures. Further, FIS' non-GAAP measures may be calculated differently from similarly titled measures of other companies. Additional information about these non-GAAP measures is provided in the appendix to this presentation. Reconciliations to the related GAAP measures are provided in the Investor Relations section of the FIS Web site, www.fisglobal.com.
