Full year 2011 EBITDA, which included integration and severance costs of approximately $13.6 million, increased 1.3% to $944.9 million compared to $932.4 million in 2010.

- International Solutions:

Fourth quarter International Solutions revenue increased 18.9% to $318.8 million compared to $268.2 million in the 2010 quarter, and increased 14.9% on an organic basis. Full year interest expense, net of interest income, increased to $258.8 million in 2011 compared to $172.9 million in 2010. The increase in interest expense for full year 2011 was due primarily to the recapitalization completed in the third quarter of 2010.

Use of Non-GAAP Financial Information

Generally Accepted Accounting Principles (GAAP) is the term used to refer to the standard framework of guidelines for financial accounting. GAAP includes the standards, conventions, and rules accountants follow in recording and summarizing transactions and in the preparation of financial statements. In addition to reporting financial results in accordance with GAAP, the Company has provided non-GAAP financial measures, which it believes are useful to help investors better understand its financial performance, competitive position and prospects for the future.

These non-GAAP measures include adjusted revenue, organic revenue, adjusted earnings before interest, taxes and depreciation and amortization (EBITDA), adjusted net earnings, free cash flow and adjusted free cash flow. Adjusted revenue (2010 comparative data) excludes the impact of deferred revenue purchase accounting and a settlement related to the card processing joint venture in Brazil. Organic revenue (2011 and 2010 comparative data) includes reported revenue plus pre-acquisition revenue for companies acquired during the applicable reporting periods. Organic revenue excludes the impact of foreign currency fluctuation in 2011, the impact of deferred revenue purchase accounting and a settlement related to the card processing joint venture in Brazil in 2010.

Adjusted EBITDA in 2011 excludes a net benefit related to adjustments from the Capco acquisition. Adjusted EBITDA in 2010 excludes the impact of merger and acquisition and integration expenses, accelerated stock compensation charges associated with merger and acquisition activity, costs associated with the 2010 recapitalization plan, settlement revenue and an impairment charge related to the card processing joint venture in Brazil, deferred revenue purchase accounting and certain other costs.

Adjusted net earnings in 2011 exclude the after-tax impact of acquisition related amortization, a non-cash charge related to an other than temporary decline in the market value of investments, debt refinancing costs and a net benefit related to adjustments from the Capco acquisition. Adjusted net earnings in 2010 exclude the after-tax impact of merger and acquisition and integration expenses, accelerated stock compensation charges associated with merger and acquisition activity, costs associated with the 2010 recapitalization plan, an impairment charge and settlement related to the card processing joint venture in Brazil, acquisition related amortization, deferred revenue purchase accounting and certain other costs.

Adjusted free cash flow (2010 comparative data) is GAAP operating cash flow less capital expenditures, acquisition related cash items and cash items associated with the 2010 recapitalization plan. Free cash flow (2011 comparative data) is GAAP operating cash flow less capital expenditures.

Any non-GAAP measures should be considered in context with the GAAP financial presentation and should not be considered in isolation or as a substitute for GAAP net earnings. Further, FIS' non-GAAP measures may be calculated differently from similarly titled measures of other companies. Reconciliations of these non-GAAP measures to related GAAP measures are provided in the attached schedules and in the Investor Relations section of the FIS Web site, www.fisglobal.com.

SUPPLEMENTAL GAAP TO NON-GAAP RECONCILIATION — UNAUDITED
(In millions)

Notes to Unaudited - Supplemental GAAP to Non-GAAP Reconciliation for the three months and year ended December, 2011 and 2010.

The adjustments are as follows:

(1) The adjustment to selling, general and administrative expense in this column represents a reduction in the liability established at the acquisition of Capco for contingent consideration. The Capco purchase price included future contingent consideration which was valued at $113.7 million at December 31, 2010 based on expected operating performance in 2013 through 2015, which has been reduced by $22.3 million to $97.2 million as of December 31, 2011. The impairment charge is a reduction in the carrying value of the Capco trademark in North America.

(2) This column represents the write-off of certain previously capitalized debt issuance costs and transaction expenses incurred as a result of the refinancing in the fourth quarter of 2011.

(3) This column represents the other than temporary impairment in the fourth quarter of 2011 of available-for-sale securities acquired in conjunction with the acquisition of Metavante Technologies, Inc.

(4) This column represents (1) charges for restructuring and integration costs relating to merger and acquisition activities and (2) costs associated with the 2010 leveraged recapitalization plan. For the three months and year ended December 31, 2010, the adjustments to "Selling, general and administrative" expenses primarily represent incremental transaction costs incurred by the Company related to the acquisition of Metavante Technologies, Inc., completed on October 1, 2009. The adjustments to "Other income (expense), net" represent certain costs associated with the leveraged recapitalization, the write-off of certain previously capitalized debt issuance costs associated with the amended and extended debt facility and the write-off of unamortized discount associated with the portion of the Metavante debt that was paid with the proceeds thereof.

(5) In August 2010, all documents required to affect a mutually agreeable exit for Banco Santander from the Brazil card processing Joint Venture were executed. Banco Santander paid a termination fee of approximately $83.3 million directly to FIS, which is included in Processing and Services Revenues for the year ended December 31, 2010. Notes payable representing additional consideration which was to be paid to the banks upon migration of their card portfolios were forgiven and reduced by $19.4 million, representing Banco Santander's proportionate interest therein. Certain capitalized software development costs exclusively for use in processing Banco Santander card activity with a net unamortized balance of $14.6 million were written off. In addition, $140.3 million, representing the portion of the unamortized contract intangible asset recorded at the initiation of the Brazilian Venture that was attributable to Banco Santander was deemed impaired as a result of Santander's exit and charged to amortization expense. In November 2010, the Company and Banco Bradesco restructured the remaining migration notes in conjunction with other revisions to the Brazilian Venture agreements, resulting in an extinguishment gain of $5.7 million.

(6) This column represents the impact of the purchase accounting adjustment to reduce Metavante's deferred revenues to estimated fair value, determined as fulfillment cost plus a normal profit margin. The deferred revenue adjustment represents revenue that would have been recognized in the normal course of business by Metavante but was not recognized due to GAAP purchase accounting requirements.

(7) This column represents purchase price amortization expense on intangible assets acquired through various Company acquisitions.

(8) During the 2011 and 2010 periods, certain operations are classified as discontinued. Reporting for discontinued operations classifies revenues and expenses as one line item net of tax in the consolidated statements of earnings. During the third quarter 2010, we determined that Fidelity National Participacoes Ltda. ("Participacoes"), our item processing and remittance services business in Brazil, should be treated as a discontinued operation. In January 2010, we closed on the sale of ClearPar. The table below outlines the components of discontinued operations for the periods presented, net of tax (in millions):

	Three Months Ended December 31,		Year Ended December 31,	
	2011	2010	2011	2010
Impairment charges - Participacoes	$ —	$ —	$ —	$ (16.6)
Participacoes operations	(5.9)	(10.7)	(24.1)	(25.2)
